## PROFESSIONAL TRAINING / CERTIFICATES

---

### SOLO LEARN (ONLINE COURSES)

*Certificate: React + Redux*

*October 2024*

*Angular Crash Course –Traversy Media (via YouTube)*

*May 2024*

THE WEB DEVELOPER BOOTCAMP 2023 VIA UDEMY

*HTML, CSS, JavaScript, React, Node*

*Selected Modules 2023*

THE HONG KONG UNIVERSITY OF SCIENCE AND TECHNOLOGY VIA COURSERA

*Certificate: Front-End JavaScript Frameworks: Angular*

*October 2022*

*Certificate: Front-End Web UI Frameworks and Tools: Bootstrap*

*May 2022*

## TECHNICAL SKILLS

---

- Angular
- React
- GitHub
- WordPress
- Social Media (Twitch, Instagram, Discord, YouTube)
- Web Development (HTML, CSS, JavaScript)
- Bootstrap
- Content Creation / Video Editing
- Unreal Engine 5 Developer

## ACADEMIC PROJECTS

---

- **Advertising Website (Full-Stack Development)**

THE HONG KONG UNIVERSITY OF SCIENCE AND TECHNOLOGY VIA COURSERA

- Developed two iterations of a restaurant advertising website, each featuring a comprehensive menu display and company background, including leadership information.
  - Version 1: Built with Angular for a dynamic, single-page application (SPA) experience utilizing Node.js for backend data handling. Integrated a JSON-based inventory system hosted on a Node.js server to dynamically retrieve and display menu items and updates.
  - Version 2: Implemented with Bootstrap to create a responsive and visually appealing front-end, ensuring compatibility across devices and screen sizes.
- Key skills: Front-end development (Angular, Bootstrap), back-end integration (Node.js), data management (JSON), API design, responsive design principles, CSS/HTML.

- **Task Manager Application**

- Developed utilizing Angular and NodeJS which enables creation, reading, updating, and deleting of task information (data stored in JSON file and retrieved from NodeJS Server).

## PORTFOLIO/TECHNICAL EXPERIENCE

# JOSHUA HODGES

<https://joshhodes.com> [ 469.260.2386 | [contact@joshhodes.com](mailto:contact@joshhodes.com)

- Developed a dynamic video game showcase website (Gimme Games) using Angular, featuring a categorized display of various games based on style and theme. Implemented data storage with a JSON database, leveraging Angular components/services to efficiently retrieve and display the information. Key skills: designing the user interface, ensuring seamless navigation, and optimizing the data presentation for an interactive user experience.
- Academic Project – Demonstrated proficiency in Bootstrap. Focused on crafting semantic Bootstrap structures using CSS for layout, styling, and responsive design. Key skills: implementing modern CSS techniques (Flexbox, Grid, shelving), and ensuring mobile-friendly performance.

## **Bluehost Webhosting Administration 2023 - Present**

- Manage and deploy multiple websites on the Bluehost platform domain.
- Provide installation, setup, ongoing administrative support for Angular and WordPress sites.
- Administrate User and Access Management: Set up access for site developers and team members, controlling permissions.
- Grant access levels for site files and directories and email accounts.

## **Website Development for a Non-Profit Organization August – December 2023**

- Developed preliminary website design (utilizing angular) for a non-profit organization that provides supplies such as water, technology, and etc. to communities.

## **Social Media Moderator 2017 - Present**

- Consult with users on Twitch Dashboard and command line editing for stream elements.
- Moderate for 20 plus diverse channels including Twitch Partners and Affiliate ensuring and upholding community guidelines/regulations answering questions.
- Monitor chat interactions to ensure reinforcement of rules, timing out or banning disruptive users,
- Collaborate with other moderators and streamers to maintain an engaging live streaming experience.
- Maintain in-depth knowledge of the funding model within Twitch ecosystem.
- Proficient in utilizing various social media platforms (i.e., Discord, YouTube, Instagram) to complement moderation functions and to promote more viewer traffic.
- Actively uses discord to conduct group discussions and to collaborate with other members.
