PROFESSIONAL TRAINING / CERTIFICATES

SOLO LEARN (ONLINE COURSES)
Certificate: React + Redux   *October 2024*

Angular Crash Course –Traversy Media   *May 2024*

THE WEB DEVELOPER BOOTCAMP 2023 VIA UDEMY
HTML, CSS, JavaScript, React, Node   *June 2023*

THE HONG KONG UNIVERSITY OF SCIENCE AND TECHNOLOGY VIA COURSERA
Certificate: Front-End JavaScript Frameworks: Angular   *October 2022*
Certificate: Front-End Web UI Frameworks and Tools: Bootstrap   *May 2022*

UNIVERSITY OF TEXAS AT ARLINGTON,
Studied information Systems   *2020 - 2021*

TECHNICAL SKILLS

- Angular
- React
- GitHub
- WordPress
- Prompt Engineering / AI Integration

- Web Development (HTML, CSS, JavaScript)
- Bootstrap
- Content Creation / Video Editing
- Unreal Engine 5 Developer
- Social Media Administration

PORTFOLIO WEBSITE

Portfolio Website (https://joshhodges.com)
- Developed a portfolio website highlighting technical projects, front-end frameworks, and UI/UX design expertise across multiple technologies.
- Built using Angular's modular, component-driven structure to ensure reusable, scalable, and dynamic site performance.
- Integrated visually appealing layouts and responsive structures leveraging Bootstrap's grid system.
- Optimized navigation flow, loading performance, and consistent design language across all sections.

Key sections featured:
- **Site Project:** Interactive candy-themed site demonstrating JavaScript, DOM interaction, and visual storytelling.
- **Academic Project:** Showcases Coursera certification project built with Angular and Bootstrap, integrating real-world scalable design principles.
- **Angular Project:** Architecture-driven web application delivering component reusability, animation, and performance optimization.
- **Key skills:** Angular, Bootstrap, WordPress integration, responsive design, version control (GitHub), and social media optimization.

ACADEMIC / PERSONAL PROJECTS

Advertising Website (Full-Stack Development)

THE HONG KONG UNIVERSITY OF SCIENCE AND TECHNOLOGY VIA COURSERA

- Developed two iterations of a restaurant advertising website that includes a full menu display, company background, and leadership overview.
- **Version 1:** Built using Angular to create a dynamic Single-Page Application (SPA) with Node.js for backend communication. Implemented JSON-based data retrieval from a Node.js server for updating menu content in real time.
- **Version 2:** Designed with Bootstrap for clean, responsive UI and optimized layout performances across all screen sizes.
- **Key skills:** Angular, Bootstrap, Node.js, JSON data management, responsive design, HTML/CSS, front-end architecture.

Angular Task Manager Application

- Created a CRUD-capable task management system using Angular and Node.js, managing task information with JSON for server-side data persistence.
- Designed modular Angular components and custom services to handle data flow between front and backend systems.
- **Key skills:** Angular component structure, API integration, data handling, UI/UX optimization.

Candy-Themed Interactive Website

- Designed an engaging web experience showcasing various JavaScript-driven interactive elements within a candy-themed UI.
- Focused on user engagement and creative representation, emphasizing animation, layout harmony, and responsive mobile performance.
- **Key Skills:** HTML, CSS, JavaScript modernization, DOM manipulation, responsive UI/UX design.

EXPERIENCE

Lighting by Design, *Lighting Consultant*   *2025 – Present*

- Ensure proper setup of lighting for premier artwork.
- Design and implement lighting solutions that enhance the visual appeal and preservation of artwork.
- Select proper lighting fixtures and position them for optimal effect.
- Adjust lighting levels to achieve the desired ambiance.

Website Developer   *2022 - Present*

- Manage and deploy multiple websites.
- Provide installation, setup, and ongoing administrative support for Angular and WordPress sites.
- Administrate User and Access Management: Set up access for site developers and team members, controlling permissions.
- Grant access levels for site files and directories and email accounts.
- Design and develop websites, highlighting creativity and technical skill**s.**
